**BOOK**

**Tram Art Gallery**

This book is a treasure chest of information that will nourish your soul. Tramric brings new themes in a book every year for transport enthusiasts. We have worked with professional photographers to create a photo compilation that will debut in July, and we are fortunate to have the preface written by Hong Kong Tramways' General Manager.

<Tram Art Gallery> is designed and packaged as a collector's item, portraying our trams in an artistic and creative way. The photo collection captures our trams in unique settings and highlights changes in our cityscape over time as the tram network bears witness to over a hundred years of rapid development. In addition, we have also included tram development history and plans for a tram network in Kai Tak.

Author : Bona Liu, Kelvin Pang, Eric Lee, Kenny Yung, Joe Fung

**A Centenary Date with Hong Kong Tramways**

To celebrate the 100th anniversary of tram service, we publish <A Centenary Date with Hong Kong Tramways>, which includes valuable historic photographs and information about our trams' development history. We have detailed previous plans to build tram networks in Kowloon and the northwestern New Territories, and documented our travels to similar networks in mainland China and Taiwan. It's a must-have for transport enthusiasts!
